## LIMITED WARRANTY

1. **GENERAL HEALTH WARRANTY:** Your pet is guaranteed to be healthy, that is to say, there are no serious health problems. **HOWEVER, FOR THIS WARRANTY TO BE EFFECTIVE, YOU MUST (1) TAKE YOUR PET TO A VETERINARIAN WITHIN TWO (2) DAYS FROM DAY OF PURCHASE AND (2) NOTIFY ME IMMEDIATELY OF ANY MAJOR PROBLEM.** Ear mites, worms and coccidia are not serious health problems if treated and are not covered by this warranty. Hypoglycemia (low blood sugar) is a serious health problem but is excluded from this warranty as this is generally caused by too much activity and/or too little food and is within your control.

2. **GENETIC WARRANTY:** Your pet is guaranteed against any life-threatening genetic or hereditary problems for two (2) years from time of purchase.

If you notify me within two (2) days from time of purchase that your vet has found your new pet to have a major problem (applies to the General Health Warranty), or if, within two (2) years from time of purchase you notify me that your vet has found your new pet to have some life-threatening genetic problem (applies to the Genetic Warranty), then I will replace the pet with a healthy pet of a similar kind when available upon your promptly returning the pet to me along with a letter from your vet stating this and upon my vet confirming your vet's findings.

As a condition to the Genetic Warranty in the event your pet dies within two (2) years from time of purchase, you must provide a written autopsy report from the Veterinary School at the University of Georgia or Tifton confirming that a genetic defect was responsible for the death of the pet.

In connection with all of the foregoing, under no circumstances will I be responsible for any expenses incurred by you, and all claims for special, incidental, and consequential damages are hereby excluded. The foregoing warranties are in lieu of all other warranties, express or implied.

FEEDING: Your pet has been fed \_\_\_\_\_. If you choose not to keep your pet on this food, you should mix the sample dog food which I am giving to you with the puppy food of your choice, slowly changing the food. Abrupt changes in food can upset your new pet. I cannot be responsible for complications from incorrect feeding. Keep dry food and water available at all times. DO NOT FEED TABLE SCRAPS OR MILK.

**WE STRONGLY RECOMMEND THAT YOU HAVE YOUR PET SPAYED OR NEUTERED.**
